**HOT TIPS**  
 -New 2012 Model... always check for latest bulletins and firmware updates.  
 - Important Bulletins for rear cover removal and front cover replacement to prevent damage.

**SERVICE BULLETINS**  
**ASC20120319002:**  
 SUBJECT: Rear Cover replacement procedure for 2012 Full LED (EH series) TV models  
**ASC20120319001**  
 SUBJECT: Front Cover replacement procedure

# Disassembly Caution for LED-H TV Servicing Prep.

1. Place monitor face down on cushioned table.

2. Remove 4 screws from the stand.

3. Remove stand.

4. Remove the 1 screw of cover jack.

5. Remove cover jack.

6. Disconnect the function Assy. Cable

7. Remove the screws of rear-cover.

8. Remove the rear cover

Not removing the connector can cause **Damage** to the PC/Connector as shown.

# Fast Track Troubleshooting Manual

## TROUBLESHOOTING VIDEO PROBLEMS

### 1. Verify Video Operation (2012 Models)

- a. **Boot Logo** models with X10 Micro-Processor & above during power on. Boot Sound only (X9 MPU) during power on.
- b. **Customer Picture Test** in user menu
- c. **“Display”** (If display and Boot Logo & Customer Picture Test are OK the source or cables are first suspected . Then check for a defective input on the Main Board.)
- d. Substitute with known good Source (external DVD or Signal Generator to check inputs on Main Board)

### 2. Using Test Patterns in Factory Mode

- ENTER FACTORY MODE -

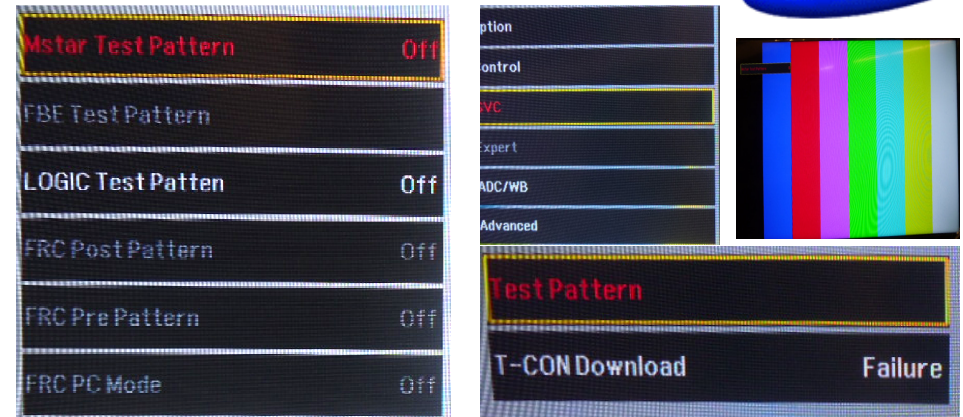

1. Select an active source signal since Test Pattern may rely on signal source to appear or select TV Source mode.

#### Customer Remote

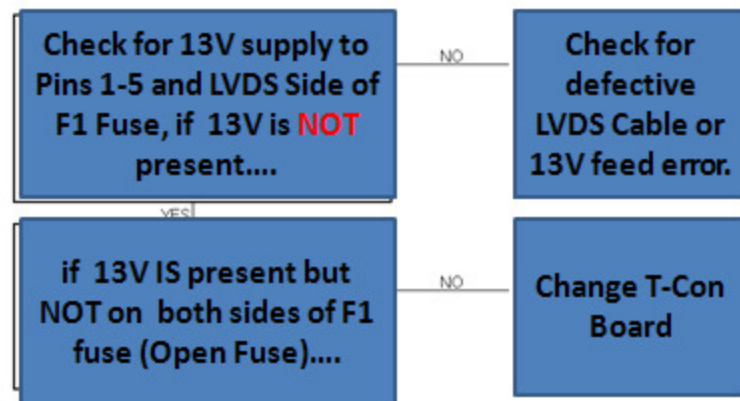

2. Power Standby
3. Mute, 182, Power On
4. Select SVC
5. Select Test Patterns

#### Service Remote

2. Power On
3. Info, Test

## T-Con Troubleshooting

**ON SCREEN FAILURE EXAMPLES:**

If Picture & Display errors  
Defective Main Board, LVDS,  
or T-CON

Green lines or a green screen  
defective main board , LVDS , or  
T-CON.

Original Image

Image on Screen

Pixelization can be caused by the main board  
but is more commonly a source error

Vertical or Horizontal Lines :Defective  
Panel likely but also T-CON, LVDS, or Main  
Board. Use Test Patterns in Factory Service  
Mode to determine error)

**ALIGNMENTS:**

1. Check/Set **Option Bytes**: in Factory Mode  
(Must be performed after replacing **Main Board**.)

Standard Remote

1. Power OFF the TV
2. Press MUTE, 1 8 2, then POWER

Factory remote

1. Power the TV ON
2. Press INFO then FACTORY

# '2012 LED Hybrid Disassembly cautions for Front Cover

To prevent the removal process from damaging the connections on the sides of the panel.

(New panels come with the Front Cover)

1. Place TV face up on cushioned table.

2. Cut and split the cover off at the top

3. Carefully remove the Front Cover and insulated paper in Front of T-Con area.

4. Attach the Front Cover bottom first to the panel

5. Secure the plastic latch on the left and right side of the Front Cover as shown

6. Visually inspect the spacing between the Cover and the panel for equal clearance

7. Combine to stick the Front Cover Rib into the middle mold.
